

BÉNÉFICE SOLEIL

Payot's sun care uses the exceptional protective abilities of **Sunflower Extracts** to actively fight against signs of skin ageing by preserving collagen and elastin fibres, renewing the epidermis and limiting cellular damage by limiting free radicals. UVA and UVB filters protect against burning and long-term ageing.

	<h3><u>TAN ACCELERATING SERUM</u></h3>
	<p>Actions / benefits:</p> <p>This fresh, translucent, deliciously orange serum triggers the production of melanin, the pigment that gives the skin colour, thanks to the tan accelerating complex it contains. After sun exposure the tan appears faster, more luminous, even and long lasting. The skin is naturally better defended against sun damage; but this does not take the place of a sun protection cream.</p> <p>125ml tube.</p>
	<p>Directions for use:</p> <p>Apply every day morning and night during 2 weeks before the first exposure. Apply to the face avoiding the eye contour before your usual treatment cream. On the body, apply alone or under your body cream.</p>

	<h3><u>SPF 50 ANTI-AGEING PROTECTIVE CREAM</u></h3>
	<p>Actions / benefits:</p> <p>The ideal anti-ageing sun care to use for the first exposure to the sun, or for very fair or sensitive skin having an incredibly transparent, non-sticky texture that leaves no white residue, this smooth cream gives high protection against burning, sun damage and ageing, especially for the face and delicate areas. A real must after microdermabrasion or any other procedure that leaves the skin defenceless against the sun.</p> <p>50ml tube.</p>
	<p>Directions for use:</p> <p>Apply the cream generously and evenly at least 30 minutes before sun exposure. Repeat application frequently, especially after swimming.</p>

	SPF 6 PROTECTIVE ILLUMINATING POWDER
	Actions / benefits: This fine and silky powder warms and shades the face with a glimmering, natural glow. Brush it over your cheekbones, across the jaw line and down the nose; wherever the sun would catch your face to enhance your natural colour. The low SPF gives minimal UVA and UVB protection, making it ideal for a hint of glamour through the day, or added radiance at night. 7.5gr compact with mirror.
	Directions for use: Apply with a brush on the face and décolleté.

Related products:

SPF 50 Anti-ageing Protective Cream • SPF 30 Anti-ageing Protective Cream
• SPF 15 Anti-ageing Protective Emulsion • Anti-ageing Repairing Milk • Anti-ageing Self Tanning Milk.

	ANTI-AGEING SELF-TANNING MILK
	Actions / benefits: Thanks to a combination of ultra-efficient tanning activators associating DHA and erythrulose, this self-tanning milk will produce a fast, natural, long-lasting tan. Rich in sunflower extracts, oil and petals, it prevents the creation of free radicals and limits cell alterations. With a light and velvety texture, this emulsion instantaneously melts on the fingers and leaves only softness and comfort on the skin.
	Directions for use: Apply on the face and body on a clean dry skin.
