

LES SENSITIVES DOUCEUR

When skin is agressed, it produces reactive molecules called leukotrenes that cause redness, irritation and other undesirable responses.

While most sensitive skin products are content to soothe the skin, the LES SENSITIVES DOUCEUR line contains **Boswellia extract**, used for millennia in Ayurvedic medicine for its anti-inflammatory properties, to limit the action of leukotrienes and stop the irritation process. **Formulated without any parabens or colour**, LES SENSITIVES DOUCEUR provides genuine, natural "shields" against sensitive skin reactions by combining Boswellia extracts with **Pre-biotics** and **Sesame Extract**, which fortify the skin's natural defences, and **Lesser Celandine Root Extract**, which reactivates microcirculation to decongest red, puffy skin.
