ÉLIXIR

ÉLIXIR

Beauty oil with Myrrh and Amyris extracts

Actions / benefits:

This dry oil is enriched with a unique blend of two balsamic extracts. **Myrrh extract** is known for its healing, repairing and nourishing properties and **Amyris extract** effectively moisturises and softens the skin. These precious ingredients are combined with **Rice, Hazelnut** and **Almond oils** to protect the skin against everyday aggressions and increase the resistance to stress.

With the first application, ÉLIXIR leaves the skin soft, satiny and radiant; over time the epidermis is regenerated and repaired in depth leaving the skin enhanced and its radiance boosted. When applied to the hair the result is softer and easier to untangle and style.

100ml bottle.

Directions for use:

Body: Apply ÉLIXIR with light massage movements all over the body, concentrating on your décolleté, arms and hands.

Face: Spray ÉLIXIR in the palm of your hand and apply directly on your skin, avoiding the eye-contour area. For even greater comfort, mix your night cream and a spray of ÉLIXIR.

Hair: Spray ÉLIXIR into your palms and lightly rub the ends of your hair. To give your hair extra shine and softness, spray a generous amount of ÉLIXIR on it and cover it with a warm towel for 10 minutes before shampooing.

Bath: For a genuine moment of sensuality and well-being, add a few sprays of ELIXIR to your bath water.
